

TRU ACID STAIN™

Concrete Acid Stain

Description

TruCrete's Tru-Acid™ Stain are a line of durable strength, inorganic, Acid based stains that react with the concrete as they penetrate deep into the surface to produce vibrant colors resembling nature's mineral colors and hues with the permanence of Nature's Minerals.

Recommended Uses

Tru-Acid™ Stains are applied to any clean, cured concrete surface or concrete overlay surface and allowed to react and dry. Once washed and sealed, the various colors that are applied become a permanent part of the concrete with lasting beauty.

Advantages

- UV Stable
- Wide Range of Colors
- Economical
- Easy to apply
- Polish-able

Appearance	Various Colors available
Type	Reactive Acid based concrete stains
Smell	Slight Pungent
Toxicity	Harmful if swallowed
VOC's	None
Flammability	Non- flammable
Composition	Various metallic entities in an aqueous acidic base

Environmental Impact

2x Concrete Stains contain no arsenic, lead, or mercury and no volatile organic solvents.

Note: The final color of the concrete may not match the colors chosen on the color chart due to variables beyond our control including finishing techniques, job conditions and curing methods
